

# Piano Lessons Registration Form

Kindergarten - 6<sup>th</sup> grade

***"I would teach children music, physics and philosophy; but most importantly music, for the patterns in music and all the arts are the keys to learning." - Plato***

Studies have shown how playing the piano aids in brain development! It is the ultimate instrument in terms of skill and demand. Two hands have to play together simultaneously developing right or left handedness. Playing the piano strengthens the weaker side of the brain to more closely match their dominant side, making their mind efficient in every way.

Piano Lessons instructed by our very own Music Teacher, Ms. Lisa Adams, are available to our Kindergarten and Elementary Students! Lisa Adams has been teaching private piano and voice for nearly 30 years. She has a Music Education degree, studied Kindermusik and developed an early childhood music education curriculum called Exploring Music. She has been teaching this curriculum in a variety of schools for many years. During this time she has also maintained a private teaching schedule of around 45 students.

Enjoy the convenience of your child receiving private piano instruction right here at school! Each lesson is 30 minutes long, once a week in our Music Room during the school day. Students will be permitted to practice the piano at school during certain times throughout the week in preparation for upcoming lessons.

Ms. Lisa offers opportunities for recitals throughout the school year. Participation in these recitals are included in your monthly charge.
